

**AN APPEAL FROM COLLABORATIVE  
TRANSPORTATION COMMITTEE**

Over the last few weeks, this committee has tried through various means to obtain the names and telephone numbers of parishioners from our five parishes in Belmont and Watertown who have transportation needs in order to get to weekend Masses. We have had small response to our inquiries in bulletins and through pulpit announcements. We realize that it may be several months before people actually have a need and during summer vacation time, the fall seems far away. In order to plan effectively and to insure that we are ready to provide adequate response to needs, we need to have a good idea as to how many people will be looking for assistance. So, if you, a relative, neighbor or friend anticipate a need for a ride to church once the parishes reconfigure, please complete or invite them to complete the form below and return it to your parish rectory or drop it in the collection plate or call Sharon Carrigan at 617-484-1996 and give her your information. Thanks you for helping us help you.
